

**Speed Bump designed for traffic calming of urban areas and safety zones
with speed limit of 20 mph (30 kph)**

SPEED BUMP ECOBAM RDV 400 /30 is made of cast iron, includes a LED illumination system and the inviolable attachment system ECOBAM FIX©. The speed reducer height is 1.18 in (30 mm)

**Speed limit of: 20 mph (30 Kph)
Traffic: Low-medium density
Zones: Urban and Safety Areas**

Section width: 16.53 in (420 mm.)
Section length: 15.75 in (400 mm.)
Maximum height: 1.18 in (30 mm.)

**“All Speed Bumps must
have night lighting, to
guarantee its visibility
and localization”**

ECOBAM RDV

Speed Bump Ecobam RDV 400 / 30 © is designed to implement traffic calming measures in urban areas with low to medium traffic safety or sensitive traffic areas like school zones, hospitals areas, commercial areas, etc.

Suitable for:

- Speed limit of 20 mph (30 kph)
- School zones
- Hospital areas
- Shopping centers / shopping malls
- Downtowns & historical areas
- Residential areas (as well as industrial areas and commercial areas)

Speed Bumps ECOBAM RDV represent an innovation which eliminates all the problems associated to other speed bumps manufactured with rubber or asphalt / cement, like product durability and fast deterioration of rubber speed bumps or high installation costs of asphalt / cement speed bumps, and poor visibility of both kind of products.

The advantages of the Speed Bumps ECOBAM RDV are:

- ✓ Outstanding durability of the product, made of cast iron, it is indestructible and it is not deformable, assuring the highest product life of the market.
- ✓ No maintenance, its design and materials avoid any kind of maintenance of the product like replacing modules, fixations, etc.
- ✓ Maximum security, LED lighting system increases the visibility of the Speed Bump so the driver see earlier the speed bump and reacts faster slowing the speed of the vehicle.
- ✓ Effectiveness, its shape causes a vertical deceleration harmlessly on vehicles.
- ✓ Sustainability, low power consumption LED illumination system and materials used in its manufacturing are 100% recyclable.
- ✓ Modular system with easy installation
